

Health & Safety Policy

As a core value to Crest Air Conditioning's business activities, we are committed to the prevention of incidents by providing and maintaining a safe and healthy environment for all Crest Air Conditioning employees, contractors, visitors, as well as the broader community.

The approach of Crest Air Conditioning to Work Health & Safety (WHS) is one of continuous improvement, by establishing measurable goals and objectives and consistently reviewing / revising our processes in WHS performance with the aim to eliminate incidents / injuries within the workplace. This is to be achieved by enhancing the skills, knowledge and commitment of its workforce, which embraces all Staff Members, Contractors and Suppliers.

To attain this objective our aims are to:

- Comply with all WHS Legislation, Standards and Codes of Practice
- To consult and communicate with employees regarding HSEQMS issues
- Apply Risk Management processes that identifies, evaluates and controls risks with the specific aim of risk elimination or reduction of incidents / injuries
- Provide each employee at Crest Air Conditioning with appropriate training, equipment and support to consistently perform their duties in a safe manner
- For Line Managers to understand and dutifully undertake their HSEQ duty of care / due diligence responsibilities to all relevant Staff, Contractors, Visitors and all Members of the Public
- Be acknowledged as a good corporate citizen concerned for the safety and well-being of our staff, all contractors and visitors.

As Managing Director of Crest Air Conditioning, I am personally committed to the improvement of safe working practices within the Company and it is essential that all employees, contractors and suppliers associated with our operations recognise, contribute and abide with the Company commitment to the prevention of all accidents within the workplace.

Andrew Johnson
MANAGING DIRECTOR

REVISION DATE: 30th May, 2016
